

## Blades

EcoScapes Blades are a ceiling-mounted acoustic solution designed to allow you to achieve different architectural expressions that solve acoustic challenges while enhancing the look of any space.

Choose from multiple shapes and formats, including natural wave, straight (rectangular), angled, and custom options. Use a single format to create a clean, angular look, or a rhythmic wave effect. Alternatively, mix and match multiple Blade shapes to transform your space with custom and fully functional architectural compositions.

Available in a wide range of colours, wood grain finishes, and paintable/printable options, EcoScapes Blades allow you the freedom to create unique architectural elements that will transform the look and feel of a space. Providing an elegant alternative to nondescript ceilings, a means of hiding unsightly pipes and HVAC infrastructure, all while complementing pre-existing design and architectural elements.

### Available Options

#### Dimensions

<b>Width:</b>	<b>Height:</b>
48" (1,219mm)	11.8" (300mm)
72" (1,829mm)	15.7" (400mm)
96" (2,438mm)	

#### Edge Type

Square Edge

#### Thickness

1" (25mm)

#### Shapes

### Construction

Materials: Heat-bonded PET fibres

Recyclable: Panel constructed with 50-75% post-consumer PET. 100% recyclable.

No VOCs, No binders, No Formaldehyde. Odourless, Non-allergenic and Non-irritant. Does not shed. Safe to handle without protective equipment.

### Testing

#### Sound Absorption

EcoScapes Blades are designed to equal or exceed the acoustic performance of competing products. Exact NRC values will vary depending on the chosen specifications and suspension conditions of your baffles. Contact your Primacoustic sales representative for more details.

#### Fire Safety

ASTM E84 - Class A  
EN 13501 - Class B

### Accolades

50-75% recycled content

Will contribute to meeting LEED standards.

### Available Finishes

\*Straight baffles only

## Hardware Options

---

Dimensional Baffles are easy to install and can be mounted using off-the-shelf hanging systems, integrated sliding PET groove, or fully custom mounting options compatible with standard Unistrut and T-bar systems. Custom sizes and configurations are also available upon request.

Your choice of suspension hardware will be included with the baffles.

## Maintenance

---

EcoScapes panels are easy to clean and take care of. PET should not shed or break down over time. Surface dirt and dust can be removed with a duster or vacuum cleaner without damaging the panel, while carpet or upholstery shampoo should remove most stains.

## Arrays

---

Sold in sets of 6 baffles. Combining multiple sizes and designs allows for various patterns to be created.
