

Dimensional Baffles

EcoScapes Dimensional Baffles are an acoustic solution designed to be suspended from the ceiling to allow you to achieve different architectural expressions that solve acoustic challenges while enhancing the look of your space.

Ideal for adding a touch of architectural flair or complementing pre-existing structural elements such as exposed beams and rafters, Dimensional Baffles offer substantial sound absorption in two distinct 3-dimensional formats, Book and Vault.

Testing

Sound Absorption

EcoScapes Dimensional Baffles are designed to equal or exceed the acoustic performance of competing products. Exact NRC values will vary depending on the chosen specifications and suspension conditions of your baffles. Contact your Primacoustic sales representative for more details.

Fire Safety

ASTM E84 - Class A
EN 13501 - Class B

Accolades

50-75% recycled content

Will contribute to meeting LEED standards.

Book

Hardware Options

Dimensional Baffles are easy to install and can be mounted using off-the-shelf hanging systems, integrated sliding PET groove, or fully custom mounting options compatible with standard Unistrut and T-bar systems. Custom sizes and configurations are also available upon request.

Your choice of suspension hardware will be included with the baffles.

Vault

Maintenance

EcoScapes panels are easy to clean and take care of. PET should not shed or break down over time. Surface dirt and dust can be removed with a duster or vacuum cleaner without damaging the panel, while carpet or upholstery shampoo should remove most stains.
