

Blades

EcoScapes Blades are a ceiling-mounted acoustic solution designed to allow you to achieve different architectural expressions that solve acoustic challenges while enhancing the look of any space.

Choose from multiple shapes and formats, including natural wave, straight (rectangular), angled, and custom options. Use a single format to create a clean, angular look, or a rhythmic wave effect. Alternatively, mix and match multiple Blade shapes to transform your space with custom and fully functional architectural compositions.

Available in a wide range of colours, wood grain finishes, and paintable/printable options, EcoScapes Blades allow you the freedom to create unique architectural elements that will transform the look and feel of a space. Providing an elegant alternative to nondescript ceilings, a means of hiding unsightly pipes and HVAC infrastructure, all while complementing pre-existing design and architectural elements.

Construction

Materials: Heat-bonded PET fibres

Recyclable: Panel constructed with 50-75% post-consumer PET. 100% recyclable.

No VOCs, No binders, No Formaldehyde. Odourless, Non-allergenic and Non-irritant. Does not shed. Safe to handle without protective equipment.

EPD & HPD declarations available on request.

Available Options

Dimensions

Width:	Height:
47.2" (1,200mm)	11.8" (300mm)
70.9" (1,800mm)	15.7" (400mm)
94.5" (2,400mm)	

Edge Type

☐ Square Edge

Thickness

1" (25mm)

Available Finishes

EcoScapes Core PET

Designer Grain Wood Effect PET

Straight shape only

Custom Printed PET

For detailed swatch information, please refer to the swatch sheet for your chosen finish, (appended to this document).

Available Shapes

Wave A

Wave B

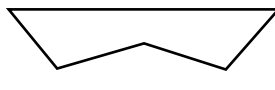

Wave C

Straight

Wing

Custom Shapes

Accolades

Panel contains up to 75% recycled materials

Will contribute to meeting LEED standards.

Greenguard Gold Certified (Free of VOCs)

Acoustic Testing

NRC:

0.35" (9mm) - 0.25
0.5" (12mm) - 0.41
0.1" (24mm) - 0.70

Fire Safety Testing

ASTM E84 - Class A
EN 13501 - Class B

Warranty

Primacoustic acoustic products are guaranteed to be free of manufacturing defects for a period of 3 years after purchase. Please visit www.primacoustic.com/service-warranty for more information.

Hardware Options

Blades are easy to install and can be mounted using off-the-shelf hanging systems, or fully custom mounting options compatible with standard Unistrut and T-bar systems. Custom sizes and configurations are also available upon request.

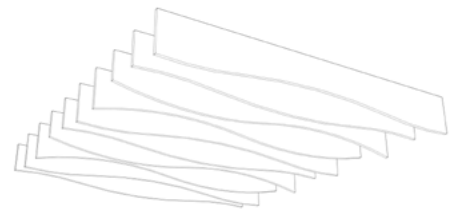

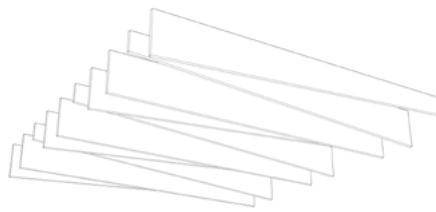

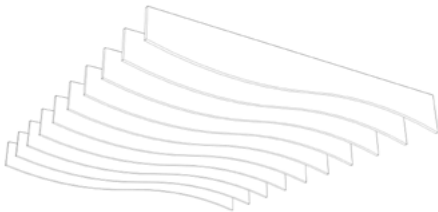

Your choice of suspension hardware will be included with the baffles.

Maintenance

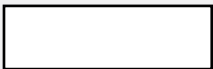

EcoScapes panels are easy to clean and take care of. PET should not shed or break down over time. Surface dirt and dust can be removed with a duster or vacuum cleaner without damaging the panel, while carpet or upholstery shampoo should remove most stains.

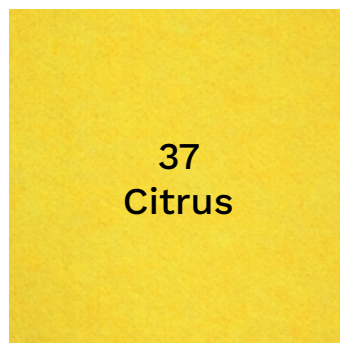

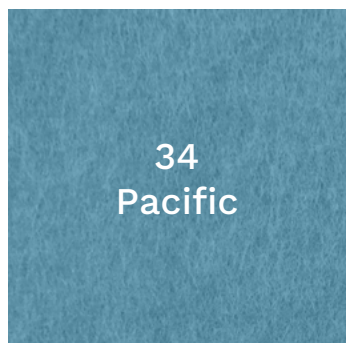

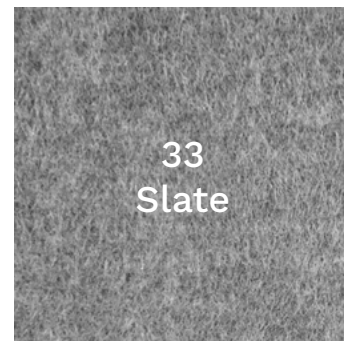

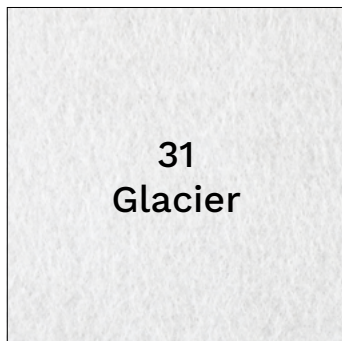

Arrays

Blades are sold in sets of 6 baffles. Combining multiple sizes and designs allows for various patterns to be created.

Core PET features Primacoustic's most popular PET colours, carefully selected to complement a wide range of commercial, education, hospitality, and workplace environments. Manufactured from high-quality acoustic PET, each finish delivers reliable sound absorption with a clean, modern appearance, providing a timeless foundation for projects where performance and design go hand in hand.

[For specifications, testing data, and all other information, refer to the data sheet for your chosen EcoScapes acoustic panels.](#)

[Due to the nature of the manufacturing process, and finished materials, slight colour variation may occur and is within commercial manufacturing tolerances.](#)

Managing noise in your space's shouldn't require you to go back to the drawing board with the interior design, potentially ruining your carefully-thought-out look. The range is designed to be as unobtrusive as possible, complementing your existing aesthetic, rather than taking it over. Whether your space calls for a rustic, cabin look, or for slick minimalism; chances are one of the neutral wood grain textures in the range will fit right in. All while providing the high quality acoustic performance that Primacoustic is known for.

Specifications

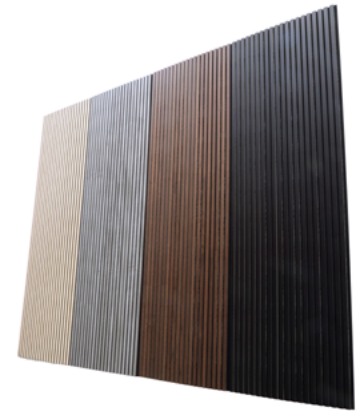

Designer grain finishes are used across the Primacoustic product range on a variety of materials, allowing you to keep a consistent look across a combination of acoustic products:

- Printed onto glass wool panels with a breathable water-based latex paint coating.

- Printed directly onto recycled PET panels.

- As real wood veneer, used on Primacoustic Slat Wall panels.

[For panel specifications, Please refer to the Engineering Data Sheet for your chosen acoustic panels.](#)
