

Dimensional Baffles

EcoScapes Dimensional Baffles are an acoustic solution designed to be suspended from the ceiling to allow you to achieve different architectural expressions that solve acoustic challenges while enhancing the look of your space.

Ideal for adding a touch of architectural flair or complementing pre-existing structural elements such as exposed beams and rafters, Dimensional Baffles offer substantial sound absorption in two distinct 3-dimensional formats, Book and Vault.

Construction

Materials: Heat-bonded PET fibres

Recyclable: Panel constructed with 50-75% post-consumer PET. 100% recyclable.

No VOCs, No binders, No Formaldehyde. Odourless, Non-allergenic and Non-irritant. Does not shed. Safe to handle without protective equipment.

EPD & HPD declarations available on request.

Available Options

Dimensions

Width:	Height:
47.2" (1,200mm)	8" (203mm)
70.9" (1,800mm)	
94.5" (2,400mm)	

Thickness

3" (76mm)

Available Finishes

EcoScapes Core PET

Designer Grain Wood Effect PET

Vault only

Custom Printed PET

For detailed swatch information, please refer to the swatch sheet for your chosen finish, (appended to this document).

Acoustic Testing

EcoScapes Dimensional Baffles are designed to equal or exceed the acoustic performance of competing products. Exact NRC values will vary depending on the chosen specifications and suspension conditions of your baffles. Contact your Primacoustic sales representative for more details.

Fire Safety Testing

ASTM E84 - Class A
EN 13501 - Class B

Accolades

Panel contains up to 75% recycled materials

Will contribute to meeting LEED standards.

Greenguard Gold Certified (Free of VOCs)

Book

Hardware Options

Dimensional Baffles are easy to install and can be mounted using off-the-shelf hanging systems, integrated sliding PET groove, or fully custom mounting options compatible with standard Unistrut and T-bar systems. Custom sizes and configurations are also available upon request.

Your choice of suspension hardware will be included with the baffles.

Vault

Maintenance

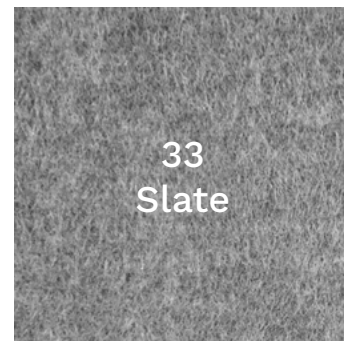

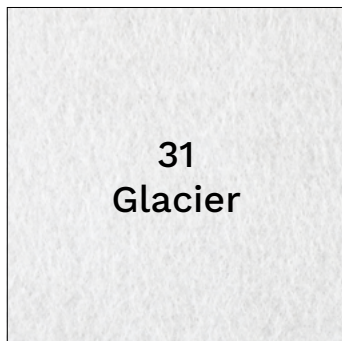

EcoScapes panels are easy to clean and take care of. PET should not shed or break down over time. Surface dirt and dust can be removed with a duster or vacuum cleaner without damaging the panel, while carpet or upholstery shampoo should remove most stains.

Warranty

Primacoustic acoustic products are guaranteed to be free of manufacturing defects for a period of 3 years after purchase. Please visit www.primacoustic.com/service-warranty for more information.

Core PET features Primacoustic's most popular PET colours, carefully selected to complement a wide range of commercial, education, hospitality, and workplace environments. Manufactured from high-quality acoustic PET, each finish delivers reliable sound absorption with a clean, modern appearance, providing a timeless foundation for projects where performance and design go hand in hand.

[For specifications, testing data, and all other information, refer to the data sheet for your chosen EcoScapes acoustic panels.](#)

For more information, please contact your Primacoustic Sales Representative

[Due to the nature of the manufacturing process, and finished materials, slight colour variation may occur and is within commercial manufacturing tolerances.](#)

Managing noise in your space's shouldn't require you to go back to the drawing board with the interior design, potentially ruining your carefully-thought-out look. The range is designed to be as unobtrusive as possible, complementing your existing aesthetic, rather than taking it over. Whether your space calls for a rustic, cabin look, or for slick minimalism; chances are one of the neutral wood grain textures in the range will fit right in. All while providing the high quality acoustic performance that Primacoustic is known for.

Specifications

Designer grain finishes are used across the Primacoustic product range on a variety of materials, allowing you to keep a consistent look across a combination of acoustic products:

- Printed onto glass wool panels with a breathable water-based latex paint coating.

- Printed directly onto recycled PET panels.

- As real wood veneer, used on Primacoustic Slat Wall panels.

[For panel specifications, Please refer to the Engineering Data Sheet for your chosen acoustic panels.](#)
